### Ages 8-10

We feel we have a great responsibility to this age group. The 10 and under group is very special and will receive personalized attention and training. Learning proper technique at this age is very important, but we never forget "football is a game", making sure practice is fun.

### Ages 11-12

While still making practice fun, we step it up a notch for this age group with more advanced technique training on both offense and defense. Our Razorback player coaching staff will intensify the instruction in all phases of the game with positive, enthusiastic instruction and more advanced technique training.

### Jr. High Level

If you never played football before or if you are an advanced player, these former Hogs know how to make you a better football player! The instruction will intensify in all phases of the game. Each player will receive more advanced technique training and will return to their team a much improved football player.
